

30/8/2009.

Hi, Einar and Else Karine, how are you? I hope - you and family are fine, we are all fine too, we continue good with our general activities.

Purpose of this letter is to say hello to you also to send monthly report, and to say thank-you very much for money you send to us, we received them.

On 21st August was graduation of Benadetha and 19th september will be graduation of Janeth and Justine, I think will be very nice, because we will be - many of us, Alvide, Ronja and Tone, also they will - see some different part in Tanzania compart to Norway.

I pay all exams for standar seven children and - no more pay in sep because they going to have last exams (mean national exams on 9th and 10th on september then they will. be finish school and start pre-form one corse. Also I change food time table for - children, I add some of things on, example meat - now they are big so, they not enough with meat we - was make for them, also I add another thing you - can see on new time table. this is the picture of benade this graduation, it was nice, also this another new boy: we take him at 29/August from bush (Kidogobosi) and his story.

Also I have another thing to tell you, but its very bad. Adolphina start to have boy friend, its some months now, but I was trying my best to educate her, that ~~the~~ way she is follow is dangerous, but she is very quit girl, she is not answer and not stop with her bad way. I found telephone to her school bag, the telephone was belong to a man, I took the - phone, also the other children at the centre when they try to tell her about her bad behavior, she like to boxing with others, so yes also last month she was brought

Elizabeth, Janeth and Christina to police station, she told police that they steal her money, Police was wrote a letter to me and ask me to go with them, I was there with all them, and I was asking her where she got money? because she is not working and no any relative come to visit her, so after long talk, police found that Adolphina is layer, and they punish her alot, also I was brought the phone there and read all sms in the phone, after there I was going to the paster in Lutheran Church, I was thinking may be he can help us with prayer and good words from bible and tell them all about Tanzanian women be- after married when she is jobless, I thank to paster- and I was tell all good things we have, they say they understand but, Adolphina not understand, now I found a letter say that "From Adolphina to Benedict, Pls I want you benedict to come to my mother and tell her that you want to marry me and she have to allow me to stop with school, otherwise, if she will not allow me to marry you, I will take pregnat at the centre". I dont want school - now I want to marry. Do hurry pls.

So I think to take her to where I take, I think she is - big enough thats why she think about married, also in her school you pay alot of money, is not helping to pay- for someone who dont want, even though she distable others alot, and if we are not take any action, the - other children will think thats right what Adolphina doing,

It is problem when children are growing, I think we have to help with continoue school for child who ~~what~~ want it, the good thing to help the small one to grow well, after growing, if she/he want school is ok, if dont want I dont think if we can do ^{any} ~~something~~. I'm waiting answer from you, the pollice say she have to be away with others for now until we got Surgestion or answer from you. I was quit beca use I was trying to solve as mother, but difficult. Its me
