We are doing fine all of us, all children are - doing good in school, except three, Janeth, Bena - and Justice they are still waiting for second selection, teacher's tell us, it will be second-select but, its late because was no classes for them, they get help from south African build some classes, so we still hope they will get chance, because at the Mikumi college - teacher says, they want to take only from form four level, some of the students didn't do good because they got only primary school - and a lot of thing in their studies are in english so, teacher says, ~~it~~ its make so difficult for teachers to teach, thats why they want from form four, if they will not be in second-select, then we will see what next we can found for them. Nothing much, Silje says she will tell you many in the internet. Say hello to all your family.
